EXPERIENCE

Web Development

- Worked on the websites based on auction in hackathon named Hackaweb.
- Technologies which were used are HTML, CSS, Javascript and Tailwind CSS.
- Personal projects also use these technologies.
- Worked on the projects such as frontend clone of spotify and windows 11.

App Development

- Made some basic apps like flashlight toggling app, quiz app, sqlite database app, screen color changing app and data storing in firebase.
- Have a thorough insight of intents, screens, activities, XML, manifests, gradle and Android architecture.

UI & UX Design

- In depth knowledge of wireframes, mockups, designing and empathizing.
- Projects include product advertisements (products such as wireless controller, shoes), websites, apps, wireframes, glassmorphism and research on newer trends and ui's in the market.
- Also, I am a casual writer and can hold up errands such as content writing and blogging.

Intern @ SimplyLocal

- Worked as a software analyst.
- Had an in-depth knowledge of their app and covered things such as user-flow, ui and ux.
- Suggested and improvised some potential ui upgrades in some of their sections of the app.
- Tested everything on the app from login/signup to comments and also worked on the running environment of the app.
- Reported the bugs and crashes of the app on a daily basis in the form of documents for the reference of the developers.

EDUCATION

VIT Bhopal University

Bachelor of technologies in
Computer Science and
Engineering

CERTIFICATIONS

- Google UX Design certified
- Participation certificates from hackathon organized by various communities.
- AWS cloud nascom certified.
